

May 2, 2008

Due to construction projects on nearby streets, the traffic pattern for entry and exit for both the 6th and 7th Avenue Garages will be impacted. Please take note of the dates, times and traffic patterns listed below, and drive safely:

Friday evening May 9 until Monday morning, May 12

- Vehicles exiting the 6th Avenue Garage onto G Street, will be required to turn left, and go North on G Street, then east on 6th Avenue
- G Street, south of the alley between the 6th & 7th Avenue Garages, will be closed to all vehicle traffic
- THERE WILL BE NO ACCESS TO BOTH EXIT LANES FOR THE 7TH AVENUE GARAGE (G Street exits)
- The 7th Avenue Garage will be converted to one lane in and one lane out, on H Street. The south lane on H St. will be equipped with a card reader and will be used for all entries. The exiting traffic will be permitted only via the H St. north lane.

Friday evening May 16 until Monday morning, May 19

- Vehicles exiting the 6th Avenue Garage onto G Street, will be required to turn left, and go North on G Street, then east on 6th Avenue
- G Street, south of the alley between the 6th & 7th Avenue Garages, will be closed to all vehicle traffic
- THERE WILL BE NO ACCESS TO BOTH EXIT LANES FOR THE 7TH AVENUE GARAGE (G Street exits)
- The 7th Avenue Garage will be converted to one lane in and one lane out, on H Street. The south lane on H St. will be equipped with a card reader and will be used for all entries. The exiting traffic will be permitted only via the H St. north lane.

Remember, this adjusted traffic pattern impacts traffic from end of business on Friday, until the early hours of Monday, on two successive weekends. The garages will operate per normal entry/exit routines during the business week. Please check this site for updates.
